

Mohanned Al Alshaikh

Computer Information Systems Graduate

Mohannedmalshaikh@gmail.com | +966544291955 | Dammam, Eastern, Saudi Arabia | linkedin.com/in/mohanned-alshaikh

PROFILE

Computer Information Systems graduate with hands-on experience in operational analytics, business intelligence, reporting automation, and process improvement within enterprise environments. Proven ability to coordinate across teams, manage structured workflows, and transform complex operational data into clear insights that support decision-making.

PROFESSIONAL EXPERIENCE

10/2025 – 04/2026 Dammam, Saudi Arabia	Operations Data Analyst Tamheer Program <i>Saudi Railway Company</i> - Built a portfolio of 5+ Power BI dashboards, including Delay Analysis and Zero Injury, with the Zero Injury dashboard integrated via Airtable REST API; analyzed data from SQL, Airtable, PDF, and Excel sources — reducing manual reporting time by 60%. - Selected and led the migration of core tracking systems to SharePoint, evaluating platform options and designing the system architecture from scratch for cross-functional use across Yard, Safety, and Freight Operations teams. - Developed an Airtable Trip Log system automating trip duration and delay calculations and route level summaries across 10 daily trips, replacing an inconsistent, phone-based manual process. - Built and administered separate Airtable-based Zero Injury and Fitness for Duty systems, digitizing 7 safety assessment categories and replacing a sequential, call-based escalation chain with automated fitness-for-duty notifications to crew leaders and management.
06/2024 – 08/2024 Khobar, Saudi Arabia	IT Support Intern – Co-op Training <i>Arab National Bank</i> - Contributed to the full IT infrastructure setup for a newly opened bank branch, deploying and configuring workstations, peripherals, network devices, and security certificates — ensuring the branch was fully operational on schedule. - Performed BIOS configuration and system compatibility adjustments across 40+ devices spanning multiple branches, coordinating both remote assistance and on-site visits to complete the rollout on time. - Managed end-to-end PC imaging, domain integration, IP configuration, and security policy setup for every new workstation deployed, ensuring compliance with bank IT standards across 5+ branches. - Maintained hardware inventory across multiple branches using barcode scanning and Excel documentation.

EDUCATION

08/2020 – 05/2025 Dammam, Saudi Arabia	B.Sc. in Computer Information Systems <i>Imam Abdulrahman Bin Faisal University</i> Relevant Courses: Python, Data Mining, Databases, Network Infrastructure, Business Strategy
---	--

PROJECTS

09/2024 – 04/2025	Automated Report Generation System — <i>Graduation Project</i> Designed a web-based platform to automate and standardize academic reporting workflows, replacing manual processes with a scalable document generation system that improved consistency and reduced errors.
05/2024 – 12/2024	Movie Popularity & User Behavior Analysis — <i>Academic Project – MovieLens Dataset</i> - Analyzed user behavior and engagement trends from large-scale movie rating data. - Developed interactive Power BI dashboards to present popularity trends and insights.

SKILLS

Data & Analytics	Tools	Systems & IT	Core Competencies
Power BI (DAX, Power Query, Data Modeling), SQL, Excel, Python (Pandas, Matplotlib)	Microsoft SharePoint, Airtable, Microsoft Office, Google Colab, Generative AI for Research & Workflow Automation	Windows Administration, Imaging, BIOS/UEFI, Network Fundamentals	Digital Transformation, Process Improvement, Report Automation, Low-Code Automation, Analytical Problem Solving

CERTIFICATES

- **Completed:** McKinsey Forward Program (Jul 2025)
- **In Progress:** Microsoft Power BI Data Analyst Associate

LANGUAGES

Arabic — Native/Bilingual

English — Fluent
